

Promethean Education Software Suite

World's Best Education Software for the Interactive Classroom.

20 year of experience helping educators around the world.

Promethean's award winning Education Software Suite has been expanded to add the modern features and free Upgrade of ClassFlow Desktop and the flexible Android ActivConnect G to the ever popular ActivInspire Professional, ClassFlow for Teachers and ClassFlow for Schools.

The best pedagogical practices embedded in the Promethean Education Software expand the opportunities for student engagement by leveraging many newer, emerging technologies both today and into the future.

Promethean's newest additions take advantage of the mobile, Internet-connected devices such as smart phones, tablets and Chromebooks that are embedded in today's classrooms, backpacks and homes.

Unleashing the power of connected learning while preserving teacher's investments in digital content, activities and assessments with leveraging more than a decade of classroom experience and Professional Development.

Promethean

CLASSFLOW™

WHAT'S NEW?

- ActivInspire Professional, ClassFlow Desktop, and ClassFlow are designed to be used stand alone or together on the same PC.
- Class Flow Desktop is brilliantly teacher friendly.
- Simple to use by everyday teachers with very little professional development.
- Use existing flipcharts and assessments in ActivInspire or convert your favorite flipcharts. Take advantage of the free ClassFlow Desktop update at your own pace.
- Explore and choose from over 500,000 free and low-cost Android applications to customize teaching or learning styles.
- Create and deliver ALL of your interactive lessons offline or online.
- You choose what's best for the moment.
- Easily use and access your existing Flipcharts, PowerPoints®, Smart Notebooks®, and PDF files while enjoying over 80,000 free resources available in the software.
- You can even sell content and assessments that you create or buy lessons from other teachers or publishers in the ClassFlow Marketplace.

Teaching with a Modern Touch

- Deliver dynamic lessons
- Engage Students with interactive pools and quizzes
- Discover millions of resources

ActivInspire Professional

Use existing flipcharts and assessments in ActivInspire. 2.7 million lessons, activities, and assessments aligned to state standards by teachers. 10 years of hands on classroom experience and Professional Development.

ClassFlow Desktop

Intuitive and brilliantly teacher friendly. Simple to use by everyday teachers with very little professional development. Convert your favorite Flipcharts or Notebook files for use on mobile devices for online assessment. Create and deliver your interactive lessons offline or online.

ClassFlow for Schools

Harness the data of CLASSFLOW assessments with CLASSFLOW for Schools. Generate school and district-wide usage reports to customize Professional Development and Curriculum resource utilization. Safely and securely setup local student accounts to share lessons, content and assessments at home and school.

ClassFlow for Teachers

Connect your digital content to the cloud to harness the potential of Internet connected mobile devices, smart phones, tablets, Chromebooks, and PCs. Share lessons, assign activities, collect homework, and give assessments in class or at home.

ActivConnect G

Tablet Power to ActivPanel/ActivBoard. Explore and choose from over 500,000 free and low-cost Android applications to customize teaching or learning styles.

Introducing the Expanded Promethean Teaching and Learning Tools for the Modern Classroom
